BuyerRadar report: Industrial valves

Query: industrial valves
Industry: Industrial valves (`industrial-valves`)

Taps, cocks, and valves for pipes, tanks, and boilers, including thermostatic valves. The trade heading is wider than one industrial process valve.

How the scores work

Each channel is scored from 1 to 5 on Money (budget), Authority (who can say yes), and Need (fit with this product). The total is the sum, out of 15.

Ties break by Money, then Authority, then Need, then channel type (importing country, buyer type, trade show, job title, marketplace, RFQ board, community), then name.

Scores on curated channels are editorial judgments explained in the reason and tied to a public page. Company types use the United States NAICS classification from the U.S. Census Bureau. Job titles use the United States O*NET occupation classification. Shows, marketplaces, directories, and communities cite their own sites. These scores are not measurements.

Importing-country Money is not editorial. Rank 1 in the Comtrade response scores 5, ranks 2-3 score 4, ranks 4-10 score 3. Authority is 4 because importers in that country hold the order. Need is 5, 4, or 3 according to whether the HS heading is specific, close, or a broad basket. The dollar figure is the unmodified primaryValue literal.

Trade data

HS 848180 covers taps, cocks, valves, and similar appliances for pipes, boiler shells, tanks, or vats, including thermostatically controlled valves. Safety valves are HS 848140. Country dollars are the broad valve heading, not one industrial design.

The Valve Manufacturers Association of America (vma.org) is the U.S. industry association for valve makers. Money is 3 because members are largely manufacturers, who can also be buyers of designs they do not cast. Authority is 3. Need is 4 because the subject is valves, and a manufacturer association is not a list of end-user purchase orders.

Outreach: Use VMA to understand the U.S. manufacturing side. Sell a finished valve to a distributor or an end user, unless a member has asked you to supply a part.
