BuyerRadar report: Moringa powder

Query: moringa powder
Industry: Moringa powder (`moringa-powder`)

Dried moringa leaf, milled for supplement brands and herbal manufacturers. The trade heading used here is broader than moringa, and the report says so next to every country figure.

How the scores work

Each channel is scored from 1 to 5 on Money (budget), Authority (who can say yes), and Need (fit with this product). The total is the sum, out of 15.

Ties break by Money, then Authority, then Need, then channel type (importing country, buyer type, trade show, job title, marketplace, RFQ board, community), then name.

Scores on curated channels are editorial judgments explained in the reason and tied to a public page. Company types use the United States NAICS classification from the U.S. Census Bureau. Job titles use the United States O*NET occupation classification. Shows, marketplaces, directories, and communities cite their own sites. These scores are not measurements.

Importing-country Money is not editorial. Rank 1 in the Comtrade response scores 5, ranks 2-3 score 4, ranks 4-10 score 3. Authority is 4 because importers in that country hold the order. Need is 5, 4, or 3 according to whether the HS heading is specific, close, or a broad basket. The dollar figure is the unmodified primaryValue literal.

Trade data

Moringa leaf powder is commonly declared under HS 121190 (bills of lading often show a national split such as 12119029). Comtrade's heading also covers other plants used in pharmacy, perfumery, or as insecticides. Country dollars below are for that whole heading.

- HS code: 121190
- Official description: Plants and parts (including seeds and fruits) n.e.c. in heading no. 1211, of a kind used primarily in perfumery, in pharmacy or for insecticidal, fungicidal or similar purposes, fresh, chilled, frozen or dried, whether or not cut, crushed or powdered

1. Medicinal and Botanical Manufacturing

- Type: Buyer company type (US NAICS)
- Money: 5 / 5
- Authority: 4 / 5
- Need: 5 / 5
- Total: 14 / 15
- Link: https://www.census.gov/naics/?input=325411&year=2022&details=325411

NAICS 325411 (United States industry classification) is Medicinal and Botanical Manufacturing: plants that make products from botanicals. Money is 5 because they buy ingredients by the drum or the container, not the jar. Authority is 4 because purchasing and the technical manager can approve a new botanical if the spec and the file pass. Need is 5 because moringa leaf powder is a botanical ingredient, which is what this industry exists to process.

Outreach: Open with a spec the lab can file: mesh, moisture, microbial limits, heavy metals, and the organic or conventional certificate you actually hold. Offer a paid sample and a price for the first 500 kg, and ask which botanical failed their last incoming inspection.

2. BioFach

- Type: Trade show
- Money: 5 / 5
- Authority: 4 / 5
- Need: 5 / 5
- Total: 14 / 15
- Link: https://www.biofach.de/en

BioFach (biofach.de) is the organic food and natural-products fair in Nuremberg. Money is 5 because importers attend with a budget for the next season's ingredients. Authority is 4 because owners and purchasing leads walk this show, not only scouts. Need is 5 because organic moringa powder is sold in the botanical aisle this fair is known for.

Outreach: Book a meeting before the show with buyers who already list a green botanical. Bring tins of the actual mesh you ship and a one-page COA. Ask what they are short of after the last African and Indian crop, and do not open with a market-size slide.

3. Drugs and Druggists' Sundries Merchant Wholesalers

- Type: Buyer company type (US NAICS)
- Money: 5 / 5
- Authority: 4 / 5
- Need: 4 / 5
- Total: 13 / 15
- Link: https://www.census.gov/naics/?input=424210&year=2022&details=424210

NAICS 424210 (United States industry classification) covers wholesalers of drugs and druggists' sundries, the firms that move supplements toward pharmacies and practitioners. Money is 5 because wholesale buying is a stocked line, not a one-off. Authority is 4 because a category buyer can add a bulk ingredient or a branded tub. Need is 4 because many of these

houses buy finished supplements rather than raw leaf powder, so the fit is real and not automatic.

Outreach: Ask whether they buy bulk botanicals or only finished SKUs. If they buy bulk, lead with a COA and a landed price. If they buy brands, send a retail-ready offer with case pack and shelf life instead of a commodity quote.

- Authority: 5 / 5
- Need: 4 / 5
- Total: 13 / 15
- Link: https://www.onetonline.org/link/summary/11-3061.00

O*NET 11-3061.00 (United States occupation classification). O*NET OnLine lists 11-3061.00 Purchasing Managers as its own occupation. Money is 4 because the job exists to spend a supply budget. Authority is 5 because this is the person who can commit the company to a supplier. Need is 4 because moringa powder is an ingredient purchase, though not every purchasing manager buys botanicals.

Outreach: Use the title in the greeting and attach a spec, not a brand story. Ask what the current botanical failed on: color, plate count, or paperwork.

- Type: Trade show
- Money: 4 / 5
- Authority: 4 / 5
- Need: 5 / 5
- Total: 13 / 15
- Link: https://www.supplysideglobal.com/

SupplySide Global (supplysideglobal.com) is the ingredient show for supplement and food formulators. Money is 4 because brand owners and contract manufacturers compare ingredients there with real annual volumes. Authority is 4 because formulation and purchasing both attend. Need is 5 because moringa powder is pitched as a supplement ingredient, which is the show's subject.

Outreach: Lead with the claim you can support on the label in their country, the dose used in products already on shelf, and your lot-to-lot color. Ask for the formulation calendar, not a catalog download.

6. Purchasing Agents, Except Wholesale, Retail, and Farm Products

- Type: Job title (US O*NET)
- Money: 4 / 5

- Authority: 4 / 5
- Need: 5 / 5
- Total: 13 / 15
- Link: https://www.onetonline.org/link/summary/13-1023.00

O*NET 13 (United States occupation classification)-1023.00 is Purchasing Agents, Except Wholesale, Retail, and Farm Products: the buyers inside manufacturing plants. Money is 4 because they place production orders. Authority is 4 because they can recommend and often issue the order, with a manager countersigning a new vendor. Need is 5 because a botanical manufacturer buys moringa powder as a production input, which is this occupation's work.

Outreach: Send the vendor packet their plant already uses: W-9 or company registration, spec, allergen statement, and a sample lot number. Ask for the approved-vendor checklist rather than a tasting.

Alibaba.com is a public B2B marketplace where buyers request bulk ingredients. Money is 4 because inquiries are often commercial quantities. Authority is 3 because the person behind an inquiry is sometimes a trader and sometimes a manufacturer, and you cannot tell until you ask. Need is 4 because moringa powder is actively listed there, alongside many look-alike grades.

Outreach: Answer only inquiries that name a quantity, a destination port, and a spec. Reply with mesh, moisture, and a photo of the lot, and ask who the end manufacturer is before you discount.

AHPA (ahpa.org) is the American Herbal Products Association, whose members make and sell herbal products. Money is 3 because the association is not the buyer; its member companies are. Authority is 3 because a staff introduction can reach purchasing, and a cold post will not. Need is 5 because moringa leaf is an herbal ingredient of the kind this membership handles.

Outreach: Use AHPA's public member directions only within their stated rules. When you reach a member company, write to purchasing with the contaminant spec AHPA's audience already argues about: identity, microbes, and heavy metals.

- Type: RFQ board
- Money: 4 / 5

- Authority: 3 / 5
- Need: 2 / 5
- Total: 9 / 15
- Link: https://sourcing.alibaba.com/

Alibaba Sourcing (sourcing.alibaba.com) is the public request-for-quotation side of Alibaba. Money is 4 when the request states a real quantity. Authority is 3 because the poster may be an agent. Need is 2 because buyers do post for botanical powders, and many posts are too vague to price. Caution: this RFQ board is spam-prone. Many posts are recycled or unqualified. Confirm the company, the quantity, and who can sign before you reply.

Outreach: Bid only when the RFQ names mesh or a use (capsules, drink mix, extract). State MOQ and origin in the first line so a serious buyer can forward it internally.
