BuyerRadar report: B2B SaaS for dentists

Query: B2B SaaS for dentists
Industry: B2B SaaS for dentists (`b2b-saas-dentists`)

Software sold to dental practices and dental groups: scheduling, records, imaging, or billing. There is no merchandise HS code for this, so the report has no import ranking.

How the scores work

Each channel is scored from 1 to 5 on Money (budget), Authority (who can say yes), and Need (fit with this product). The total is the sum, out of 15.

Ties break by Money, then Authority, then Need, then channel type (importing country, buyer type, trade show, job title, marketplace, RFQ board, community), then name.

Scores on curated channels are editorial judgments explained in the reason and tied to a public page (a NAICS title, an O*NET occupation, a fair, a marketplace, or a community). They are not measurements.

Importing-country Money is not editorial. Rank 1 in the Comtrade response scores 5, ranks 2-3 score 4, ranks 4-10 score 3. Authority is 4 because importers in that country hold the order. Need is 5, 4, or 3 according to whether the HS heading is specific, close, or a broad basket. The dollar figure is the unmodified primaryValue literal.

Trade data

This is a service. UN Comtrade merchandise statistics do not report a goods heading for it, so this report has no import-value ranking and no invented one.

IDS Cologne (ids-cologne.de) is the international dental show. Money is 5 because dealers and groups attend with budgets. Authority is 4. Need is 5.

- Type: Buyer company type
- Money: 4 / 5
- Authority: 5 / 5

- Need: 5 / 5

NAICS 621210 is offices of dentists. Money is 4 because a practice pays a subscription and a single chair is a smaller budget than a hospital system. Authority is 5 because the dentist-owner can say yes. Need is 5 because the software is for this establishment.

Outreach: Open with the one workflow you replace this month: the missed-call list, the unbilled claim, or the empty chair. Ask how many providers are in the practice before you quote a group price.

NAICS 551114 is corporate and regional managing offices. Dental groups often buy software from a managing office rather than chair by chair. Money is 4 because a group contract is larger than one clinic, and this industry code is not only dental. Authority is 5 because that office can standardize the practices. Need is 4 because not every managing office is a dental group.

Outreach: Ask if they set software for more than one practice. If they do, sell the rollout and the admin role. If they do not, go back to the practice owner.

9. Dentaltown

- Type: Community
- Money: 3 / 5
- Authority: 2 / 5
- Need: 4 / 5
- Total: 9 / 15
- Link: https://www.dentaltown.com/

Dentaltown (dentaltown.com) is a public community of dentists. Money is 3 because members buy, and a forum post is not a contract. Authority is 2 because a thread does not bind a practice. Need is 4.

Outreach: Be a member who answers an operational question. When someone asks for a tool, offer a short trial. Do not drop a link in every thread.
